

WORKSPACE STORIES

GLOBAL EDITION 23/24

BETTER DESIGN
BETTER VALUE
BETTER WORLD

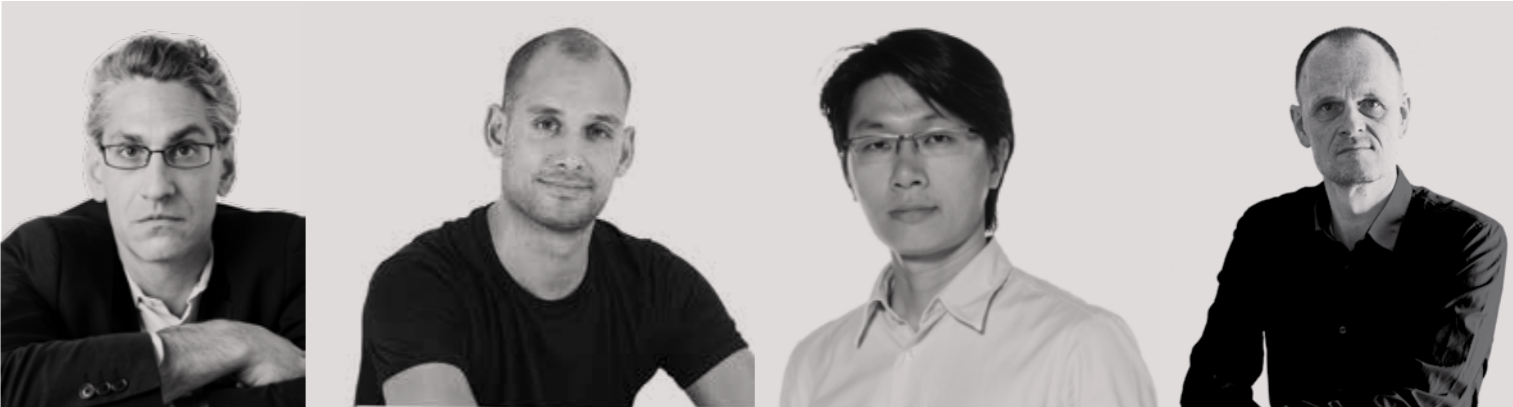

EXPERIENCES ARE THE BIRTH OF STORIES

Five days a week, eight hours a day. That's how long the average employee spends their time working, with some working even longer hours. We laugh, we cry, we fight, we love, we build meaningful connections, and we spend all this time in the workspace that it has become parallel to our personal lives.

With each and every experience we have, a colourful amalgamation of unique stories is created to give birth to lasting histories. A space so significant in our lives such as the workspace deserves to be only the best. And that is why we at WORK ANYWHERE want to help create the best scenery, the best environment, and the very best workspace for you to write your own stories.

THE MASTERMINDS BEHIND THE DESIGNS

WORK ANYWHERE works closely with several international award-winning designers from all over the world to give our customers authentic, original designer furniture that is exclusive to WORK ANYWHERE. Their collective creative genius allows our designs to constantly remain relevant to ever-changing trends and tastes, and yet not lose touch with the past. The result is a dynamic, broad and diverse range of furniture choices that include the contemporary as well as the classic and traditional.

VERSATILE, MOBILE, AND ABSOLUTELY AGILE

Experience a new, more dynamic working methodology, which favours a sustainable and people-centric way of working in versatile spaces. Mobile and agile furniture make it possible to construct a workspace that achieves flexibility and responds to an ever-increasing diversity of uses that create value and innovation through collaboration.

ACTIVITY-BASED WORKSPACE

Give your employees the power to choose when and how they work. Activity-based Workspaces are equipped with different areas related to the various tasks done throughout the day, which might include sitting in common areas to connect with other teams, working in conference rooms to take virtual meetings, or using quiet spaces to focus.

WELCOMING NATURE INTO THE WORKSPACE

Return to our roots and bring nature into the workspace for the benefit of your employee's health and well-being. Known as Biophilic Design, studies have shown that adding greenery and exposure to natural light improve mood, energy, alertness, and productivity. In addition, offering access to outdoor spaces can improve creative thinking.

WORKSPACES MADE TO BE FLEXIBLE & PRODUCTIVE

Give your employees the power to choose when and how they work. Activity-based Workspaces are equipped with different areas related to the various tasks done throughout the day, which might include sitting in common areas to connect with other teams, working in conference rooms to take virtual meetings, or using quiet spaces to focus.

COLLABORATION IS KEY

Collaboration areas are open, casual, but highly functional spaces where people convene to develop and bring ideas to fruition. Your employees will be able to get around the workspace without feeling suffocated or stuck in one place. It will facilitate the sharing of ideas and improve communication between team members.

REGAIN YOUR INNER FOCUS

There are times during the workday where one needs to sit down and focus on their tasks at hand. The Focus Area, another example of an Activity-based Workspace element, with ergonomic seating solutions and workstations, is perfect for efficient and productive working.

THE NEW ERA OF HYBRID WORKING

When the world was hit with the COVID-19 pandemic, it changed our perceptions of working forever. In this new era of hybrid working, employees now have more flexibility to get work done when they're most productive, whether on-site at hot desks or from a remote location. With work-life balance, employees have better control of their work schedules and personal lives.

OVNI

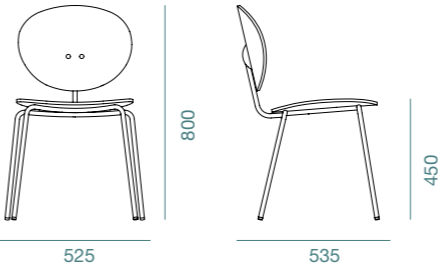

Winner of
Malaysia Good Design Award 2022

Category:
Living Room & Bedroom Products

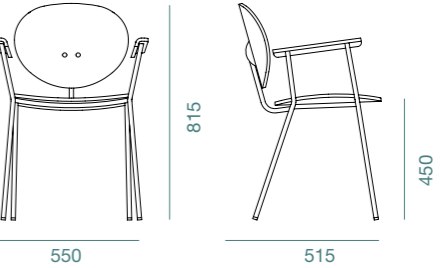

This chair is an exercise in minimalism. Constructed of laminated plywood on a metal frame, the Ovni Chair is inspired by a simple geometric shape – the oval. The oval backrest is mirrored in the oval seat, both delicately curved to offer exceptional comfort. The Ovni is also available in reclaimed denim HPL.

ZEAT

Out of the rich Scandinavian design traditions comes the Zeat Chair. Its charm lies in its utter simplicity. Zeat is minimalist in design, but still sports small details and refined curves that give the chair a distinct character. Made of mild steel, its lightness is one of its key strengths. Another is that there are different versions of the Zeat Arm Chair to cater to different moods and styles, especially in the workspace environment. Both stackable and non-stackable versions of Zeat are available.

STANDARD WOOD COLOURS

STANDARD METAL COLOURS

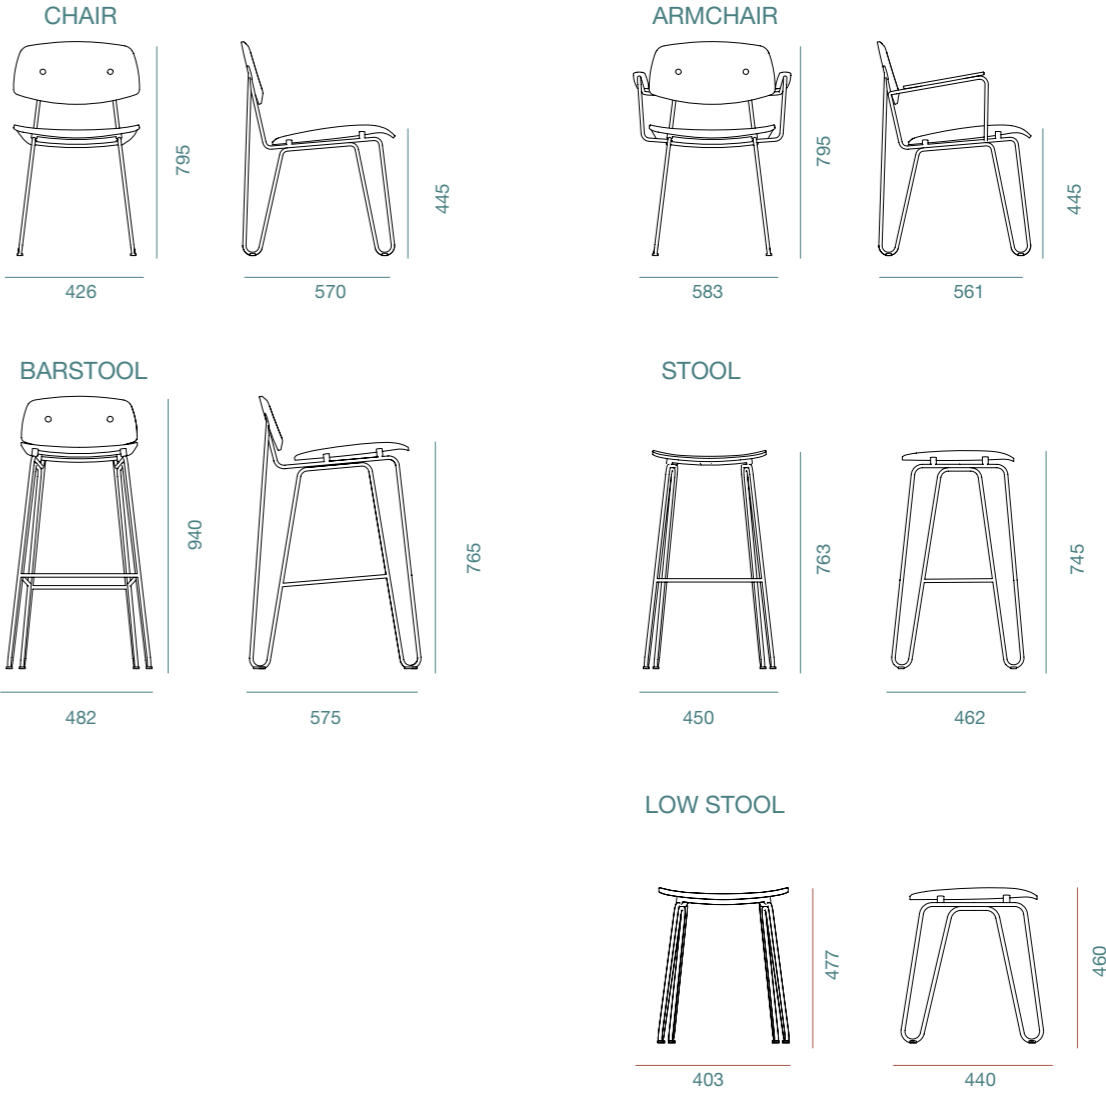

FLOAT

Winner of
Malaysia Good Design Award 2022

Category:
Living Room & Bedroom Products

As its name suggests, the Float inventively uses a slender steel frame to give off the illusion that the seat and backrest are freely ‘floating’. By delicately weaving this minimalistic look with a traditional Scandinavian esign, the Float achieves its goal of being an all-purpose contract chair that will give any setting a coherent look.

STANDARD WOOD COLOURS

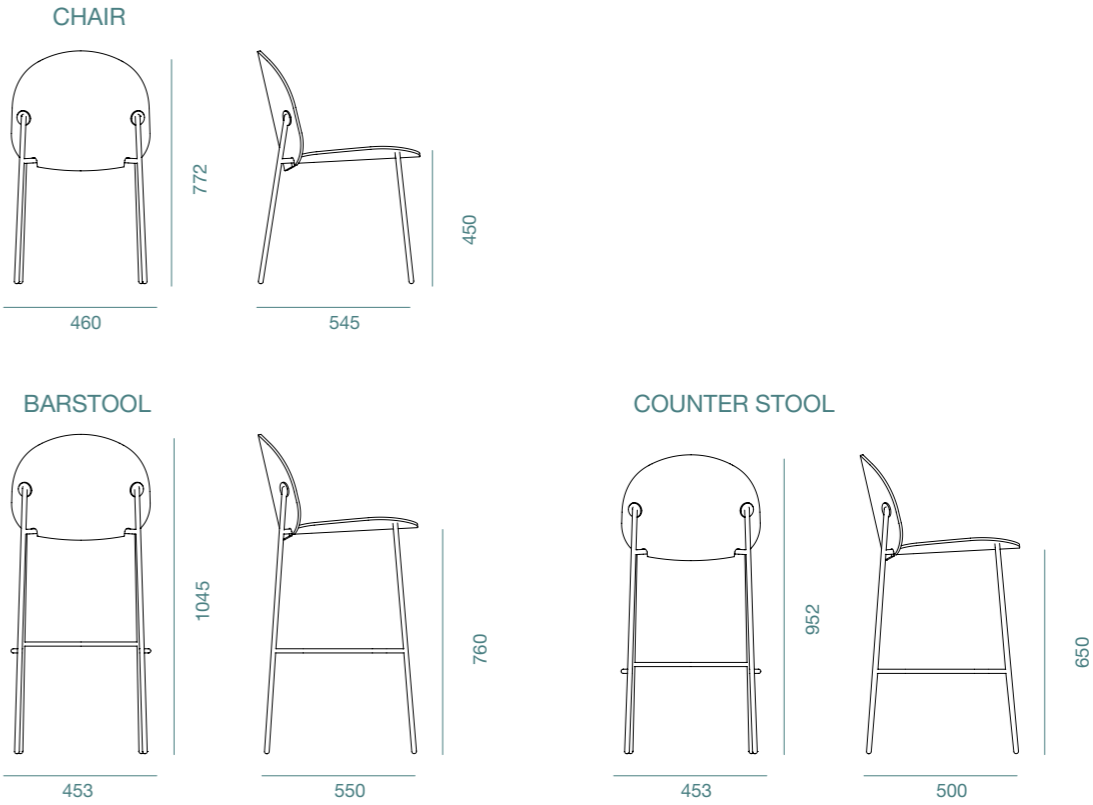

STANDARD METAL COLOURS

BOBBY

There's a certain kind of attraction in simplicity, and the Bobby brings it out to the fullest. Made from a single piece of plywood, the rounded shape of the backrest gives this chair a nice and trendy concept, always a classic design. The sturdy steel frame also makes it durable and absolutely stackable. Always by your side, the Bobby can be your seating companion for any occasion, whether casual or formal depending on its colour and finish.

GRADO

A popular chair of the 1980s finds modern expression in the Grado Chair. Light and comfortable, this reinterpreted retro chair is also charmingly uncomplicated in design, except for two signature indents at the base of the backrest which single this chair out from the others. The backrest flows seamlessly into the seat in a single smooth sweep, accentuating Grado's elegance. The Chair version is stackable up to five units.

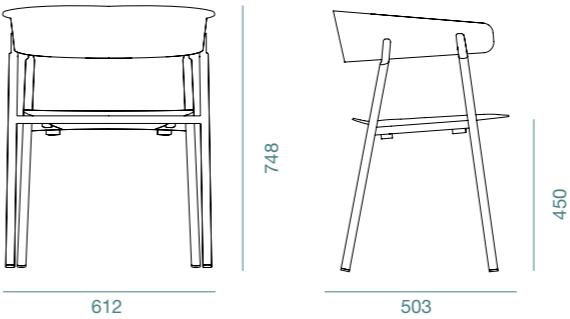

STANDARD WOOD COLOURS

MALENA

There is a down-to-earth feel about the Malena chair that gives it a timeless quality. This powder-coated fully aluminium chair is light, strong, durable and comfortable. Its practical flavour, coupled with the distinctive industrial look and a range of fun colours, makes this chair the right pick for both indoor and outdoor environments, either by itself or as part of a collection.

LOUVRE

Winner of Malaysia
Good Design Award 2013

Category:
Pending

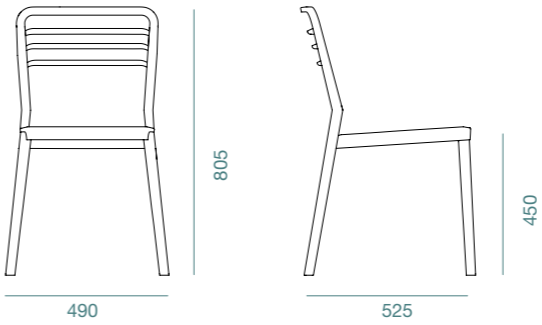

Inspired by the American Midwest style and Shaker craftsmanship, the Louvre chair is a lightweight chair with an open backrest. It reinterprets the design of traditional wooden chairs and utilises the quality of modern plastic injection moulding technology. It is a no nonsense design that is enjoyable and familiar to the user, and at the same time, modern and fun.

The Louvre Chair is stackable and can be used indoors and outdoors.

The Louvre Chair is also available in Ocean Plastic.

BALENA & AMARETTO

When you rest on the Balena, you are essentially resting on the makeup of a whale. The upturned ends of the cushion resemble the whale's smooth curved body, and the sitting surface is adorned with a modern take on the whale's belly stripes. More than that, its cushion is embossed with fabric that gives users a nice stroking experience. Apart from inspiration, the Balena also acts as an awareness-building piece, to bring to light the plight of these magnificent creatures. This piece is available in a wide range of colours.

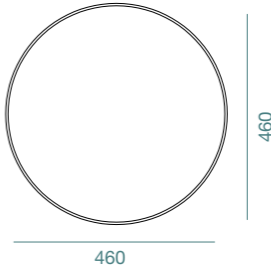

The vibrant colour of macaroons, their delicate lightness and petite shape is what gave the idea for the Amaretto. The lightweight cushion comes with a unique zipper design, and it is removable for easy cleaning. The cushion is also sold separately, in case of damage. Another noteworthy feature is its double pipping design, which enhances the quality of the product. A great pick for common spaces or as an ornamental piece.

SUSTAINABILITY

HOW CAN FURNITURE MAKE A SUSTAINABLE DIFFERENCE?

With a growing environmental awareness worldwide, we are making a conscious effort to change and reduce the impact we have on the environment.

How can furniture make a sustainable difference?

The most important step to conceive a sustainable approach starts at the very beginning of a product's creation – during the design process. A simple design that uses few, but durable, high-quality materials and requires less energy to produce helps to lay the foundations for a sustainable product. A product that is designed to last and can be reused, recycled or upcycled, achieves the goal of sustainability and reducing waste.

WORK ANYWHERE is characterised by responsible production that guarantees customers a responsible purchase. Being **sustainable** is a philosophy of life and priority for **WORK ANYWHERE**. Our furniture collections invite you to experience the joy of the outdoors and nature, and our objective is to do it with designs, materials and production processes that respect the environment surrounding us all.

OPT FOR OP

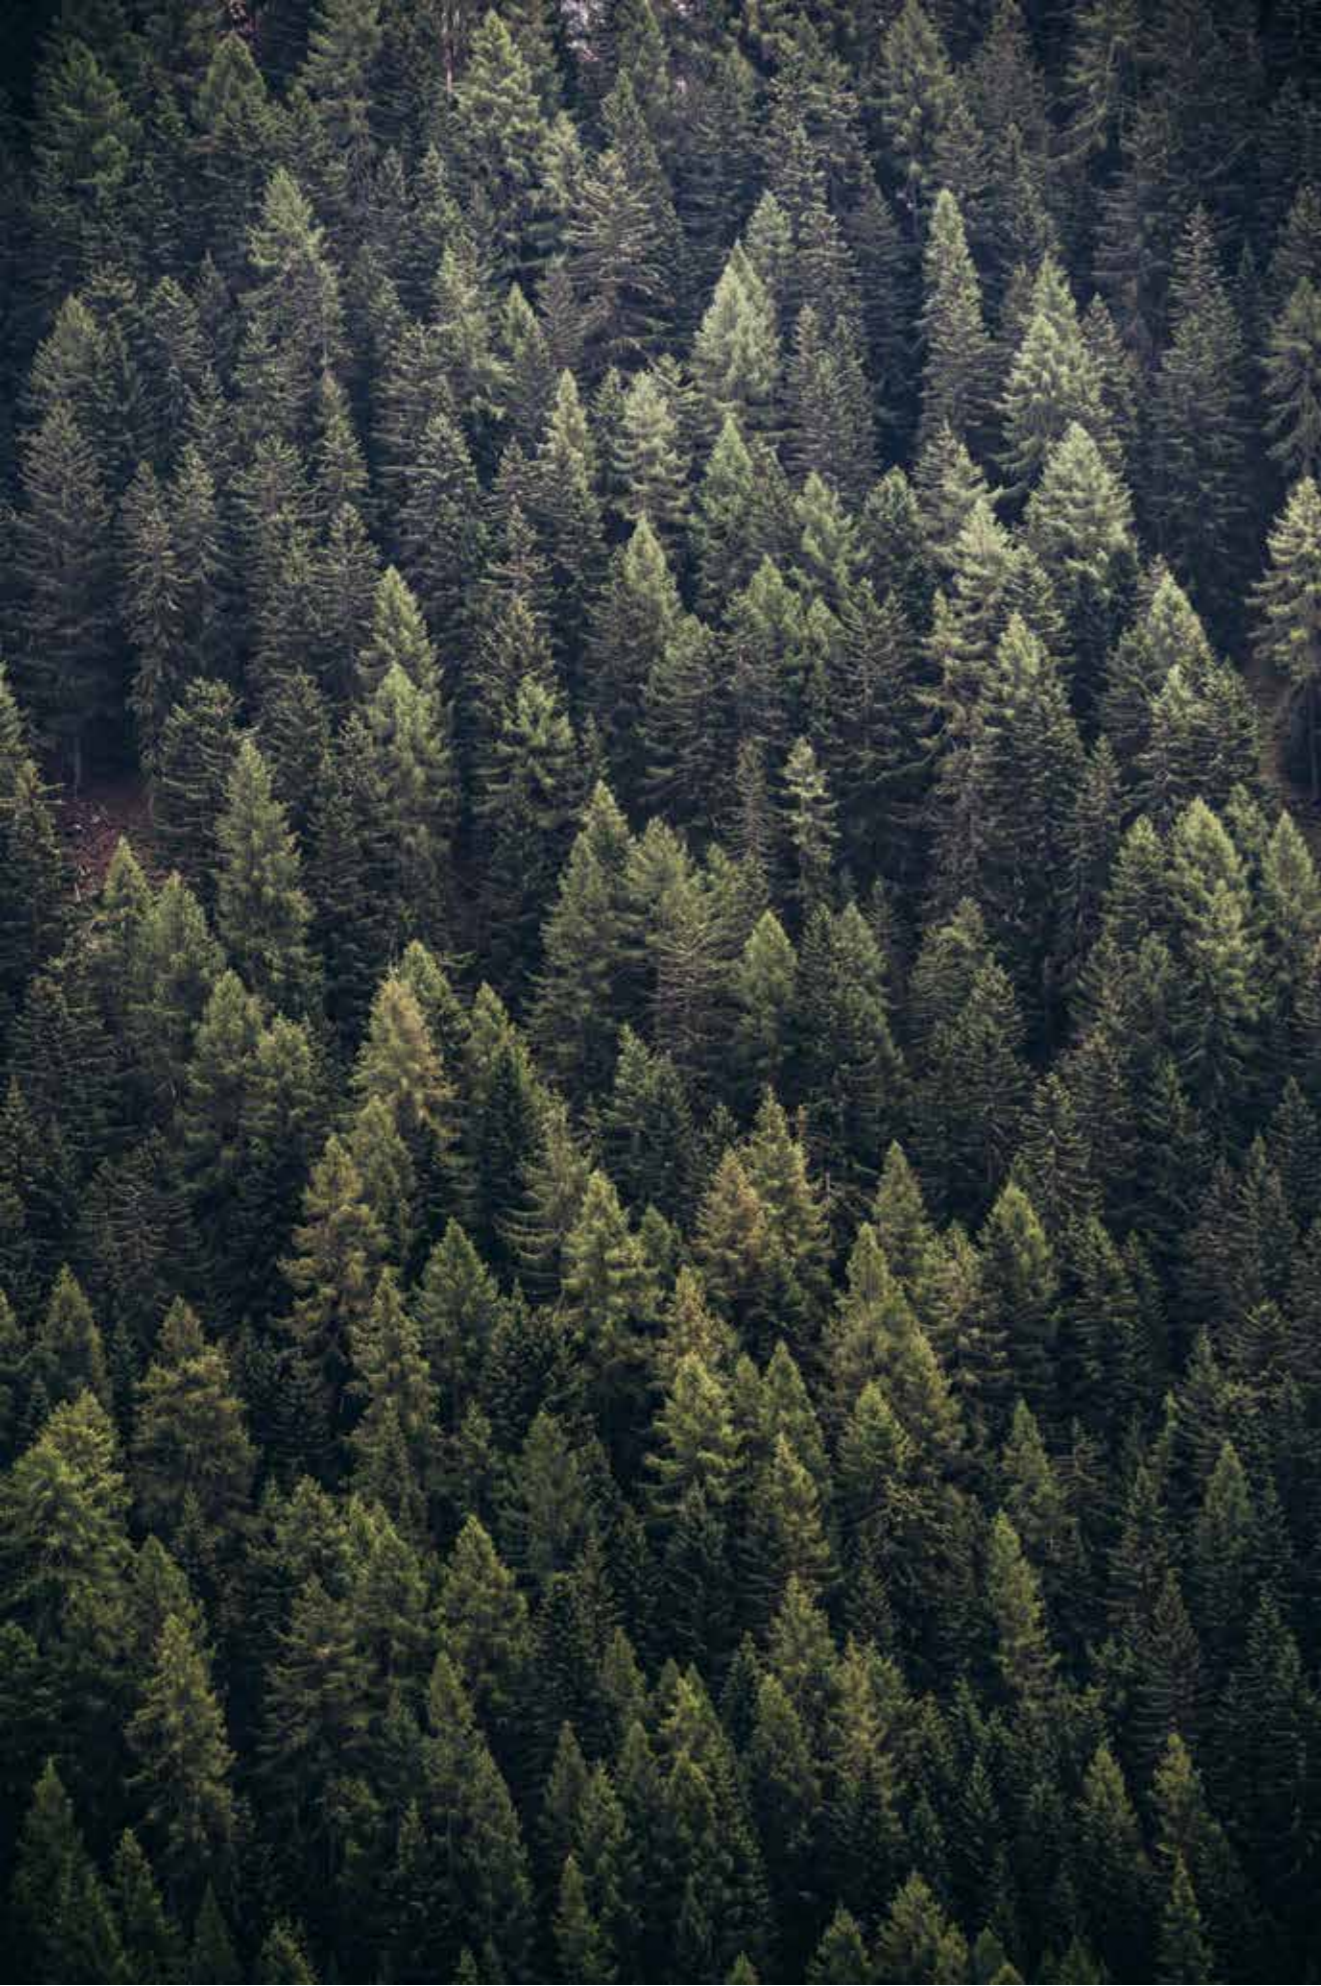

HOW CAN FURNITURE MAKE A SUSTAINABLE DIFFERENCE?

To ensure a brighter future and a Better World for generations to come, we at WORK ANYWHERE have begun taking sustainable steps in order to help save our planet from pollution and curb this growing epidemic. By partnering ourselves with a fully integrated recycling company in Malaysia, we have succeeded in manufacturing our award-winning designs using sustainable Ocean-bound Plastic (OP).

OP is made of recycled ocean-bound plastics that have been ethically gathered from coastlines around Malaysia.

By giving our customers this sustainable option, we would like to invite you to join us on our journey towards sustainability. Make the change with us for a greener, healthier Mother Earth.

FSC CERTIFIED TIMBER

HOW CAN FURNITURE MAKE A SUSTAINABLE DIFFERENCE?

In WORK ANYWHERE, continuous improvement is one of our values and we are always looking forward and aiming to do better than before. As part of our step towards achieving a Better World, we are now using ' sustainable FSC certified timber to manufacture all our popular WORK ANYWHERE designer timber chairs.

The Forest Stewardship Council, or FSC for short, is a global, non-profit organisation dedicated to the promotion of environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

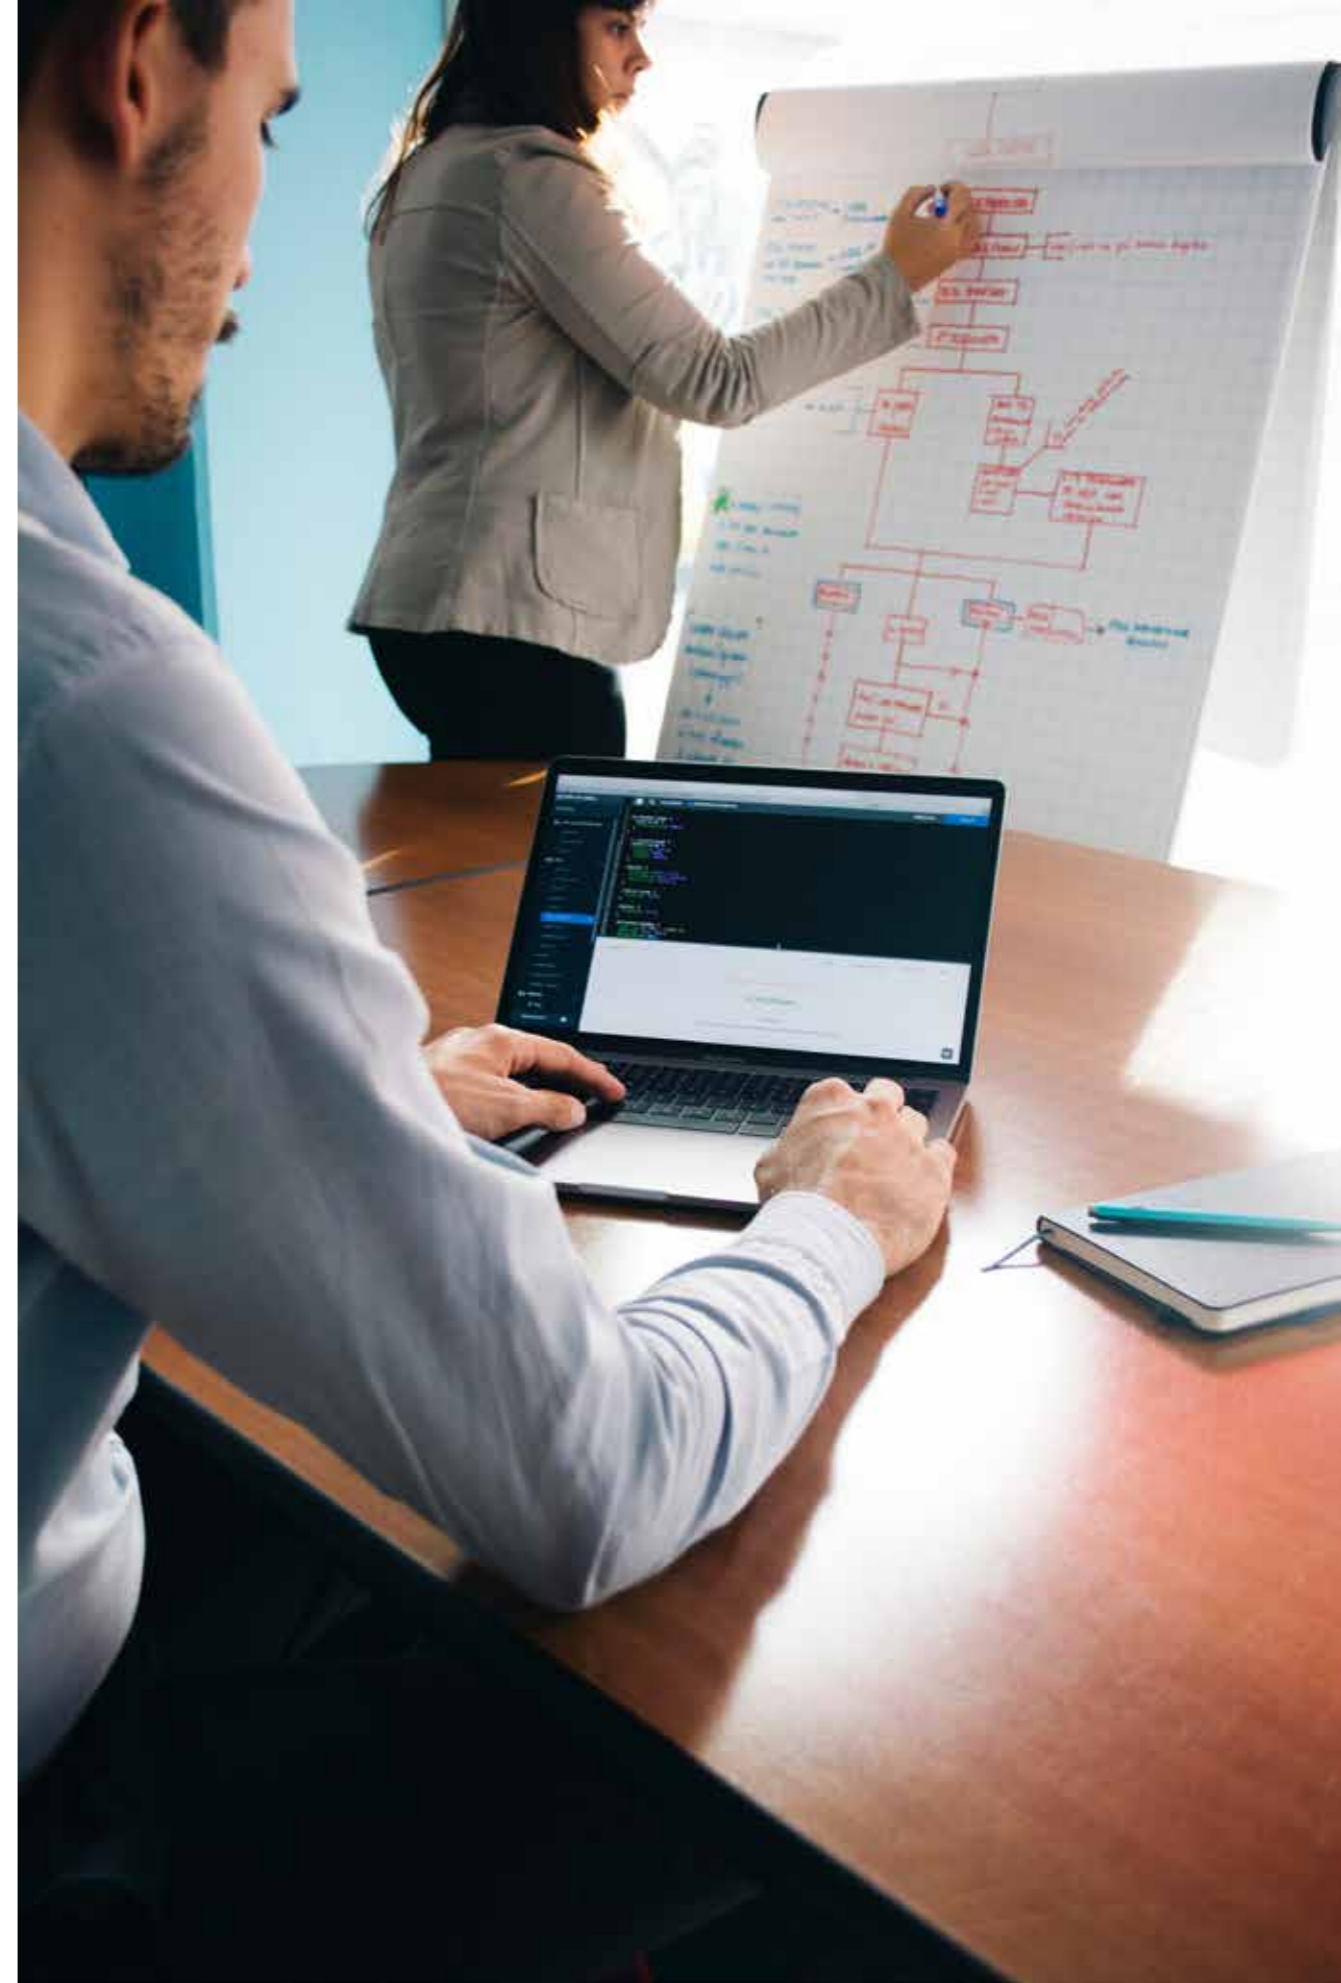

EXPERT CONSULTATION

WORK ANYWHERE strives on providing our customers with not only the best products, but also the best furnishing services. we want to make life easier for you when it comes to creating the ideal environment for your workspace.
