WHO WE ARE

KIAN is an Intelligent Furniture Solutions Provider with almost 40 years of experience in the furniture industry. As a global market leader which exports to over 100 countries worldwide, we design, manufacture and directly supply to the commercial and residential sectors. KIAN has a worldwide logistics network with storage facilities and skilled local teams to service customers.

KIAN supplies Original Designs as well as bespoke pieces that are specially made for the Hotel and Accommodation Industry. We offer flexible, as well as comprehensive packages such as Room-In-A-Box which are predesigned room solutions that can be tailored to your required budgets and styles. Or if you prefer, we also provide Project Management services where we oversee your project from end to end.

WHAT IS HOTEL OS&E

Hotel OS&E (Operating Supplies & Equipment) aims to smoothen your Hotel operational processes with furniture and appliances that provide space optimisation and mobility benefits. Our products and equipment are manufactured off site and most do not require any installation, allowing for a fast and timely set up.

ROOM-IN-A-BOX

FOR THE PRACTICAL MINDED HOTEL OWNER

Your one stop solution for all your accommodation needs. Our very own Room-In-A-Box is one of our Intelligent Furniture Solutions that is the ideal choice for quickly setting up the many rooms in your hotel. It's easily repeatable and inexpensive to refresh the design every five to seven years to remain fashionably stylish. Choose your preferred look from a range of designs we have created that would be suitable for your style and budget. The best part, we can get your accommodation business up and running in a shorter lead time. From start to finish, we can get your business ready within 3-4 months.

Here's how it works:

- Visualise your rooms within the first meeting
- No guesswork involved
- Quick turnaround
- Reduced design costs
- Talk directly to the manufacturer
- Same team from start to finish
- From practical conception to reality

OPT FOR OP

(Ocean Plastic)

OUR SUSTAINABILITY JOURNEY

To ensure a brighter future for the world and generations to come, we at KIAN have begun taking sustainable steps in order to help save our planet from pollution and curb this growing epidemic. By partnering ourselves with a fully integrated recycling company in Malaysia, Plashaus, we have succeeded in manufacturing our award-winning Louvre and 120 chairs using sustainable Ocean Plastic (OP), with more products in the works.

Plastic waste threatens the biodiversity of whole ecosystems

Recycled Ocean Plastic Pellets

Louvre chair
Design by Danny Fang

OP is made of 100% recycled ocean-bound plastic that has been ethically gathered from coastlines around Malaysia. Both of our companies worked closely with each other for months, prototyping multiple iterations to perfect the suitable material pellet formula which was then used to fabricate strong, sturdy and sustainable chairs fit for commercial use.

By giving our customers this sustainable option, we would like to invite you to join us on our journey towards sustainability. Make the change with us for a greener, healthier Mother Earth.

Blossom

Suntable

THE FUTURE OF OUTDOOR

Step outside with ShadeCraft Robotics, and step into the future!

ShadeCraft Robotics is a technology platform company in Los Angeles with a mission to improve human life outdoors through robotic technology and industrial design. Their advancement in the market has given customers a tailored luxury outdoor experience, and the exclusive nature of their products have garnered a high global demand.

BLOSSOM Smart Solar Powered Parasol Made for the Luxurious

Similar to Sunflower, Blossom by ShadeCraft Robotics is packed with smart features that will revolutionise the way you enjoy the outdoors. It collects renewable solar energy through its integrated solar panels and uses it to power Blossom's other smart features such as wireless integration, voice activation and auto wind closer system. What makes Blossom unique from Sunflower is its choice of luxurious finishings. Blossom is fabricated using exclusive materials such as high-end wood and performance fabrics, giving Blossom an upmarket look and feel.

SUNTABLE Solar-powered table with wireless charging

Suntable is the latest phenomenon from ShadeCraft Robotics that is perfect for any outdoor environment. It comes with a built-in 360° Bluetooth speaker and shaded shelf for wireless and USB charging, allowing you to fully immerse in your favourite music without having to worry about your device's battery life. Suntable is self-sustaining through its solar-paneled table top and is easy to assemble, so sit back, relax and renew your appreciation for convenient outdoor living.

DAYDREAM ISLAND

DARE TO DREAM

On a tiny remote island off the coast of Queensland in Australia, there existed a cyclone-ravaged holiday destination named Daydream Island Resort. So dreadfully damaged was the site, that refurbishing Daydream with new furniture seemed a nightmare to the resort owners. Then came KIAN, where we did away with all the hassles and headaches and took on the dream of refurbishing this paradise.

With our team of KIAN experts, we meticulously planned and managed the entire process from furniture consultation all the way to delivery and installation, while proactively dealing with any hiccups along the way.

We sourced and customised the furniture according to the resort's needs and had them shipped over from 5 different countries. Our people were stationed on-site for 5 weeks to oversee the unloading and installation, ensuring everything was delivered on-time and installed according to KIAN standards. After a rewarding eleven months, Daydream Island Resort was finally fully ready to face the world again, bigger and better than before.

MADE TO ORDER

Thanks to our global network and manufacturing capabilities, we were able to fulfil Daydream Island Resort’s need of 2,000 pieces of furniture. With 90% of the furniture needing to be tailor-made, we sourced, manufactured and customised each piece according to the drawings given and consolidated the furniture to be transported to the island, all within the schedule agreed upon.
